

If required TTW can have your engine collected and brought to the workshop, all you need to do is remove it and box it carefully.
Cost is only approx £20 inc insurance.

The prices below are for a full strip, measure and report of the top end, bottom end and gearbox/clutch, carb wash. Full basic clean and rebuild to a high standard:

Single cylinder: £200 + VAT
Twin cylinder £300 + VAT
Four Cylinder £600 + VAT

Parts, bead blasting and tuning, re-plating etc are extra.

The service provided is discussed up front and you will receive a rough quote once the engine has been stripped at which point you can discuss your options, or decide not to proceed and just pay for the time to inspect.

Engines are returned in a plywood crate fully insured to the amount you paid or you can of course collect.

Please call if you have any questions or would like to visit the workshop to see other work in progress.
