

The Tuning Works

Fork Services

From **£40** + VAT

Price based on an RGV250 USD fork set.

Send your forks by mail or bring your bike in and TTW can fit new springs, replace oil seals and bushes as required. Please note we do not offer a re-valve service as suspension specialists do.

For the RGV VJ22 TTW can supply and fit the Andreani conversion kit which is a fantastic improvement over the stock forks; increasing spring strength by 10% with much better & fully adjustable damping.
