

# The Tuning Works

Brake Line Manufacturing

From **£25** + VAT

Below you can see what to expect from TTW. Here is a kit we made up for an RS250 consisting of radial pump and 4 pad calipers.

Due to different fitments at each end, TTW manufactured the hose set.

Our brake lines are CNC machined to high standards of finish. The banjo ends can be rotated for perfect fit and matching bolts can be supplied. A homologation certificate is provided with each line.

Wide range of colours available.

Please call +44(0)1529 30 59 59 or email [sales@thetuningworks.com](mailto:sales@thetuningworks.com) for further info

£25 is for 1 line with washers. All fitting accessories are extra.
